

AMPLIROLL® HIGH ALBA20PA

TELESCOPIC AND ARTICULATED JIB
LIFTING CAPACITY **20T**

KEY POINTS

PRODUCTIVITY

Optimization and reduction of the loading angle

PERFORMANCE

Below-ground-level picking and **unmatched breakout capacity**

SAFETY

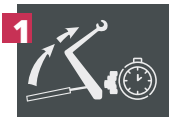

Welded hook with **pneumatic safety latch**

COMFORT

End-of-stroke damper integrated into the arm cylinders

OPTIONS

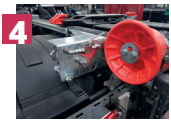

High speed

Front hydraulic locks

Rear underrun protection (RUP)

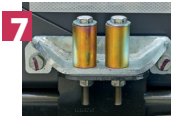

Additional hydraulic lines (for cranes, rear tipper trailer...)

Hook with mechanical or pneumatic safety latch

Vehicle stability systems

Attachments brackets suited for various truck models

Rear lifter of the loading axis

Other options available for custom configuration

TECHNICAL DATA

For GVW from 26 T		A50	A53	A56
	Min. container length (mm)	4200	4500	4800
	Max. container length (mm)	6200	6600	6900
	Container length with fixed RUP (mm)	5400	5700	6000
	Weight (kg)	2520	2570	2670
